

PREVAIL

Hero of the Month!

April 2018
Christina Adkins

Christina started with Prevail in our internship program in 2016. During her time as an intern, she worked on many projects and has gone above and beyond for all of the staff at Prevail. She completely took over the Clothesline Project in April of 2017 and grew the project participation over the previous years' locations.

Shortly after completing her internship program, Christina returned to Prevail to volunteer in many different capacities. She assisted with covering the front desk, answering phones, and any other special projects Prevail needed her for. So, when she was asked to once again help with the 2018 Clothesline Project, she did not hesitate! Despite a hectic master's program schedule she set aside several days a week to come into the office and communicate with former clothesline locations, add new ones and deliver them to Prevail supporters!

She has gone above and beyond to help Prevail in so many ways. We are very thankful to have her support and passion for all that we do here at Prevail!

Thank you for Christina! You are our Hero!
